

## Captain Bent-Thumb's Pirate Games

Louise Butler

- Ask someone to draw some Pirate's Treasure Crosses on your right fingers.
- Hold the end of a straw in your left hand and then lay it on top of the crosses on your right hand – Bury your Treasure!
- Bend your thumb and put it on the straw where your middle finger is.
- Make sure that all your Pirate's Treasure is buried under the straw!
- Turn your hand over to see a beautiful relaxed bow hand!
- Always hold it GENTLY!

Make sure you have:-

- Captain Bent-Thumb on board
- Not Captain Straight-Thumb!
- Portholes are open for your cannon
- Middle finger and thumb are buddies together
- First finger bent like a possum's tail
- The pad of your little finger hanging over the stick
- Always hold it GENTLY!

- Wave Goodbye!
- Sail across the sea.
- Oops, it's raining! - Use your windscreen wipers on the Captain's window.
- Up the Mast! - Send the Cabin Boy up the mast to look for Pirate Gold Island. Make sure he doesn't lie down or stand on his head on top of the mast! He can't swim!!
- Land Ahoy! - Look through your spy glass to see Pirate Gold Island!
- Dig and Dump!
- Bob Bunny is very annoyed when the pirates dig a hole in his roof!
- Dinner time! – Go back to the ship for a ghastly meal prepared by the old witch on board! Stir a big witch's pot and throw some ghastly things into the brew. Make sure you have a magic circle between your fingers and bent thumb to protect you from drinking the brew!
